

# Impact Statement

Burkina Faso Nutrition Programme

**July 2024 – July 2025**

# Project Overview

**461** children moved from high risk to low risk status of severe malnutrition

**238** pregnant women received training to reduce incidence of further cases.

---

**Establishment of self-funded and permanent nutrition centres**

---

## At a Glance:

Targeted children at risk of severe malnutrition in villages experiencing food insecurity intensified by armed conflict.

100% of supplemental grains and moringa sourced within local area and administered by women in the community

**Location:** Yatenga Province, Burkina Faso (Villages of Bouli and Koungo)

**Timeframe:** July 2024-August 2025

**Program Cost:** \$9300

**Partners:** Association Aidons Afrique Ensemble

**Delivery:** Community-led implementation utilizing moringa cultivated in own nursery

# Community-Owned Intervention

- **Local women put in position of empowerment through training and administration of program that continues after the completion of PeaceForward funding.**

- **The nutrition centre self-sustains itself through its own moringa cultivation.**

## **Special Thanks**

- **To our donors across Canada**
- **Association Aidons Afrique Ensemble**
- **The devoted and diligent women and men of Boungi and Koungo, Burkina Faso**

**Together we've moved peace forward by putting the power to fight malnutrition in the hands of community members. This strengthens social bonds and ensures that children grow up as healthy adults and future leaders.**
